

# Bivy Stick with SafetyAware

Seamless roaming connectivity on the world's smallest satellite device within an industry-leading worker safety ecosystem

## Connectivity, in the palm of your hand

Use the Bivy Stick to turn your cell phone into a satellite communication device. With global satellite coverage via the Iridium satellite network, anywhere you have a view of the sky, you can communicate through the SafetyAware app on your bluetooth connected smartphone. While conveniently compact, the Bivy Stick still offers a comprehensive feature set including SOS, location sharing, and one-touch Check-in, enabled through Aware360's people-centric connected worker ecosystem.

### Seamless pairing and switching

Integrated with the SafetyAware smartphone app

### 100% Global satellite coverage

Wherever your workers go, SafetyAware will be there too - powered by the Iridium Satellite network

### Keep at-risk workers connected

Easily raise SOS alerts, check-in, and access most SafetyAware functions

### Emergency alerts and response

Real-time data enables real-time decisions based on the employee's condition and location

## Primary Industries

 Utilities

 Healthcare and Social Services

 Public Sector

 Oil & Gas

 Field Services

 Forestry

## Key functionality
